## Overview 2009/10

The Camp runs the finest ski and snowboard camps available. The concept is simple ... we take you to the best resorts with the finest conditions, best parks, and provide the friendliest staff for the ultimate coaching experience!

### These are the best freestyle camps you will find ... period!

In 2009/10 we are going to be running four epic camps. The Super and Progression Camps in Niseko, Japan; Mammoth Camp in California; and our new NZ Camp out of Wanaka, New Zealand.

Read on to find out which Camp would suit your goals.

### Coaching

Our staff are what sets us apart from the rest. With a student to coach ratio of 6 to 1, you will get unparalleled feedback on-snow, in addition to world-class leadership off-snow. Our Program Director, Nick Franklin-Jones, handpicks each coach not only for their amazing talent (and good looks!) but also for their ability to translate and break down any trick in the book, into easy and understandable steps. They are highly regarded in the Australian freestyle community and all staff members have a variety of specialised qualifications to boot!

**Nick Franklin-Jones:** For the last 5 years Nick has shined in his role as Program Director. Nick's experience speaks for itself, 23 years of skiing and 15 years of Professional Instructing/Coaching. He holds certificates from the APSI, ISIA, SSA, Freestyle Level One and the Canadian Avalanche Association. He is currently the K2 Australia ski representative and Team Manager and spends his weekends as Head Freeride coach for Mt Buller's successful TBR program. His dedication and experience in providing high quality programs will guarantee that every moment is a memorable one.

## OVERVIEW

The Super Camp is a 4 - 6 week freestyle program perfect for anyone aged 12 to 23 years who is ready to develop new tricks in the terrain park, progress their general freeskiing/riding ability, or venture into the backcountry for the first time.

With coaches at the forefront of the Australian industry, 15 metres of snow and the experience of living in Japan with like-minded people, fun times are guaranteed. The program is renowned for its innovative coaching approach, allowing riders to progress at their own pace, while providing all the stimulation and facilities necessary for those who want to take their riding to the next level.

Niseko boasts the perfect platform for the new age freestyler. There are parks with booters and rails at almost every resort, but the place kills it when it comes to natural hits and backcountry. You can learn tricks on small booters or in the park, then take it out into the backcountry like the pros! There are so many things to experience during the 6 weeks.
