WE'RE MOVING! NEW LOCATION, IMPROVED PROGRAMS, SAME GREAT VIBE!!

OVERVIEW

For 10 years The Camp have run the most innovative and progressive programs on the planet. For 2008/09 we're moving the Super Camp and Progression Camp from Mt Seymour, Canada to the powder wonderland of Hokkaido, Japan. The focus hasn't changed: ride the best snow with the finest conditions at the best resorts.

With our unique approach to coaching, you'll be progressing faster than you ever thought imaginable and most importantly having a damn good time doing it! If you want to charge through powder, drop sweet lines, tighten up your money tricks or even slide your first box or rail, then we have the program for you!

■ FREESTYLE & POWDER

Niseko is perfect for the new age freestyler. There are parks with booters and rails at almost every resort, but the place kills it when it comes to natural hits and back-country. You can learn tricks on small booters or in the park, then take it out into the back-country like the pros! Our backcountry sessions from past camps have provided the best days of any camp program in the world. Niseko will be no exception. Tons of powder - 15m of the stuff, amazing views, great friends, and a variety of booters to hit, as well as powder lines to poach – these are the type of sessions that you talk about with your friends for the rest of your life! Powder is what Niseko is all about.

■ COACHING

Our staff are what sets us apart from the rest. Our low student to coach ratio will get you unparalleled feedback on-snow, in addition to world-class leadership off-snow. Each member of staff is handpicked not only for their amazing talent (and good looks!) but also for their ability to translate and break down any trick in the book, into easy and understandable steps. They are highly regarded in the Australian freestyle community and all staff members have a variety of specialised qualifications to boot!

RELAXED LIVING

ACCOMMODATION

Moiwa Lodge is a traditional Japanese lodge located right on the slopes of Niseko-Moiwa. It has 4 stories of facilities, including: restaurant, ski room, drying room, TV and DVD in each room, large communal areas, wireless internet, and games area. At the end of a long day, campers can come home and unwind by watching the latest ski/snowboard films, playing X-box or ping-pong, watching and editing their day's riding with coaches, waxing their gear for the next day's riding, staying in touch with family and friends via the internet, or just relaxing. We realise the importance of feeding our hungry riders, that's why we provide two delicious meals a day . No one ever goes hungry.

THE SUPER CAMP.
